Dear Massasoit Community,

For more than fifty years, Massasoit Community College has offered an array of courses to foster personal enrichment, career exploration, and professional advancement. We continue this tradition by providing you with courses that let you take your career to the next level or learn a skill in which you've always had an interest.

In uncertain times, we want you to know that our commitment to you has not wavered.

It is our pleasure to provide you with our Summer 2020 catalog of non-credit courses. We understand that our community is managing a very difficult and stressful situation, and it is our goal to provide you with educational opportunities in an easily accessible, risk-free manner.

We have made every effort to offer as many programs as possible in-person for the summer. However, we have worked with each instructor to discuss in advance the chance that courses may need to move to remote or online instruction due to ongoing public health concerns. In the event that a course you have registered for were to be moved to remote or online instruction, we will personally contact you to determine if you would like to continue in this format; if not, we will provide you with a full refund.

We acknowledge that uncertainty is challenging; it is our hope that our courses can provide you with an avenue for your own personal development, or for the future of your career.

We hope you will join us this summer.

Sincerely,

Melanie Haber

**CSHH 035 Emergency Medical Technician Basic**
This 172-hour MA accredited certificate program is designed to prepare students to function in the field as pre-hospital care providers. The curriculum follows National Standard Curriculum and meets and/or exceeds the Massachusetts Department of Public Health Office of Emergency Medical Services (OEMS) requirements. Through classroom and hands-on training, students learn how to manage emergencies in the pre-hospital environment including but not limited to: medical, traumatic, obstetric, psychiatric, pediatric, geriatric, and environmental emergencies. Successful completion allows the student to sit for Massachusetts and National Registry of EMTs Emergency Medical Technician certification exams. This is an entry-level program for those who wish to have a career in Emergency Medical Services (EMS) up to the Paramedic level. Additional fees for: textbooks, uniforms, national testing, and MA state certification, plus students are required to participate in an EMS online testing component (separate fee). Students are required to acquire and/or maintain a Health Care Provider CPR certification. A Massasoit certificate of completion will be issued to students who successfully complete the Basic EMT program. For specific program requirements or information, please call x1310.
