

Biology Transfer

Associate in Science

Semester 1		Credits
BIOL 121	Biological Principles I	4 <input type="checkbox"/>
CHEM 151	General Chemistry I	4 <input type="checkbox"/>
MATH 203+	College Algebra or higher General Elective	CHOOSE ONE 3 <input type="checkbox"/>
ENGL 101	English Composition I	3 <input type="checkbox"/>
LA	Liberal Arts Elective	3 <input type="checkbox"/>

17

Semester 2		Credits
BIOL 122	Biological Principles II	4 <input type="checkbox"/>
CHEM 152	General Chemistry II	4 <input type="checkbox"/>
MATH 217+	Precalculus or higher General Elective	CHOOSE ONE 4 <input type="checkbox"/>
ENGL 102	English Composition II	3 <input type="checkbox"/>

15

Semester 3		Credits
CHEM 201	Organic Chemistry I	5 <input type="checkbox"/>
MATH 221+	Calculus I or higher	4 <input type="checkbox"/>
PSYC 101	General Psychology	3 <input type="checkbox"/>
HU	Humanities Elective General Elective	CHOOSE ONE 3 <input type="checkbox"/>

15

Semester 4		Credits
CHEM 202	Organic Chemistry II	5 <input type="checkbox"/>
BIOL 215	Ecology 	CHOOSE ONE 4 <input type="checkbox"/>
BIOL 234	Cellular Biology 	
MATH 222	Calculus II	
PHYS 151	College Physics I	
PHYS 152	College Physics II	
PHYS 161	General Physics I	CHOOSE ONE 4 <input type="checkbox"/>
PHYS 162	General Physics II	
SOCI 104	Principles of Sociology	3 <input type="checkbox"/>
HU	Humanities Elective General Elective	CHOOSE ONE 3 <input type="checkbox"/>

15

This academic map is a suggested semester-by-semester guide to keep you on a clear path to program completion. Your academic advisor will provide you with clear direction needed to stay on course and discuss scheduling options with you. Taking courses not reflected on this map may result in courses not counting toward the completion of your requirements.

Milestones

You should complete BIOL 122 Biological Principles II, CHEM 152 General Chemistry II, and MATH 217 Precalculus by the end of your second semester and should meet with a biology advisor to review your progress and plans before registering for third-semester classes.

About Developmental Courses

Developmental courses do not satisfy graduation requirements but are required for those who place into them and will appear on a student's transcript. Placement into one of the following courses indicates that a student needs additional preparation before enrolling in college-level courses:

ENGL 091	Preparing for College Reading I
ENGL 092	Preparing for College Reading II
ENGL 095	Reading and Writing Seminar
ENGL 098	Reading and Writing Studio
ENGL 099	Introductory Writing
MATH 001-003	Preparing for College Math I-III
MATH 010	Fundamentals of Mathematics
MATH 011	Introductory Algebra
MATH 012	Intermediate Algebra
MATH 060	Math Literacy
MATH 061	Non-algebra Support
MATH 065	Integrated Preparation for College Algebra

KEY

Keep an eye out for these symbols, which give important information about certain courses.

These courses have no prerequisites or developmental courses required.

These courses are only offered in certain semesters.

Students must earn a minimum grade in these courses to remain in the program.

Eligible electives for this program are listed on the reverse. Watch for this symbol.

HELPFUL HINTS

Summer and/or Winter Session classes may be available for your program to help you finish on time. See your advisor or visit the online course search for availability.

Taking 15 credits/semester or 30 credits/year will help you stay on track to finish your degree in two years.

CONGRATULATIONS
You've Arrived!

Program Notes

You should not enroll in this program unless you are ready to take MATH 203 College Algebra (or a higher math course). Please contact the Science and Math Division at extension 1508 or sciencemath@massasoit.edu to make an appointment with a biology advisor if you are not prepared for College Algebra but are interested in pursuing a degree in biology, or if you place into MATH 217 Precalculus or a higher math course when starting the program.

This program is designed to prepare you for transfer to a four-year institution to pursue a bachelor's degree in the biological sciences or related field. Because different institutions may require additional coursework, you are strongly encouraged to contact the Science and Math Division (extension 1508 or sciencemath@massasoit.edu) to make an appointment with a biology advisor to discuss options.

You must complete Calculus I or higher in this program. You should plan out your math courses so that you are ready to take Calculus I in your fourth semester or earlier.

Students wishing to use the MassTransfer STEM block should select humanities electives and not general electives.

It is strongly recommended that you consider joining the STEM Scholars program, which is a cohort program that provides support, coaching, and opportunities to explore career choices and develop skills for successfully transferring to a four-year institution. Contact extension 1508 or stemstarter@massasoit.edu.

Other Electives: Students choosing a humanities, lab science, liberal arts, modern language, general, or science elective can select from the Course Elective Guide at massasoit.edu/electives.

This program is intended for students who wish to continue their education to pursue a bachelor's degree at a four-year college or university. Students enrolled in this program may consider transfer options through MassTransfer with Massachusetts state colleges and universities or other transfer opportunities at private institutions.

*Transfer Note: The **transfer maps** are only recommended for getting into some programs at particular colleges with specific grades. If you are interested in transferring, we recommend you sign up for a Transfer Information Session on our Transfer Services website: massasoit.edu/transfer.

Some courses may have prerequisites, which are courses that **must** be taken prior to a particular course. For details, log into Degree Works through your MyMassasoit portal.

A minimum of 62 credits and 20 courses is required for completion. The same course may not be used to satisfy two different course requirements.
