

### Mathematics Transfer

Associate in Science

Semester 1		Credits
MATH 221	Calculus I	4 <input type="checkbox"/>
PHYS 161	General Physics I 	4 <input type="checkbox"/>
ENGL 101	English Composition I	3 <input type="checkbox"/>
SS	Social Science Elective	3 <input type="checkbox"/>
		<b>14</b>

Semester 2		Credits
MATH 222	Calculus II	4 <input type="checkbox"/>
PHYS 162	General Physics II 	4 <input type="checkbox"/>
ENGL 102	English Composition II	3 <input type="checkbox"/>
SS	Social Science Elective	3 <input type="checkbox"/>
		<b>14</b>

Semester 3		Credits
MATH 223	Calculus III 	4 <input type="checkbox"/>
MATH 229	Linear Algebra 	4 <input type="checkbox"/>
HU	Humanities Elective	3 <input type="checkbox"/>
	General Elective	3 <input type="checkbox"/>
	General Elective	3 <input type="checkbox"/>
		<b>17</b>

Semester 4		Credits
MATH 230	Differential Equations 	4 <input type="checkbox"/>
HU	Humanities Elective	3 <input type="checkbox"/>
	General Elective	3 <input type="checkbox"/>
	General Elective	3 <input type="checkbox"/>
	General Elective	3 <input type="checkbox"/>
		<b>16</b>

CONGRATULATIONS  
**You've Arrived!**

This academic map is a suggested semester-by-semester guide to keep you on a clear path to program completion. Your academic advisor will provide you with clear direction needed to stay on course and discuss scheduling options with you. Taking courses not reflected on this map may result in courses not counting toward the completion of your requirements.

### Milestones

You should complete MATH 222 Calculus II by the end of your second semester and should meet with a math advisor to review your progress and plans before registering for third-semester classes.

### About Developmental Courses

Developmental courses do not satisfy graduation requirements, but are required for those who place into them and will appear on a student's transcript. Placement into one of the following courses indicates that a student needs additional preparation before enrolling in college-level courses:

ENGL 091	Preparing for College Reading I
ENGL 092	Preparing for College Reading II
ENGL 095	Reading and Writing Seminar
ENGL 098	Reading and Writing Studio
ENGL 099	Introductory Writing
MATH 001-003	Preparing for College Math I-III
MATH 010	Fundamentals of Mathematics
MATH 011	Introductory Algebra
MATH 012	Intermediate Algebra
MATH 060	Math Literacy
MATH 061	Non-algebra Support
MATH 065	Integrated Preparation for College Algebra

### KEY

Keep an eye out for these symbols, which give important information about certain courses.

These courses have no prerequisites or developmental courses required.

These courses are only offered in certain semesters.

Students must earn a minimum grade in these courses to remain in the program.

Eligible electives for this program are listed on the reverse. Watch for this symbol.

### HELPFUL HINTS

Summer and/or Winter Session classes may be available for your program to help you finish on time. See your advisor or visit the online course search for availability.

Taking 15 credits/semester or 30 credits/year will help you stay on track to finish your degree in two years.

## Program Notes

You should not enroll in this program unless you are ready to take MATH 221 Calculus I or higher. If you are not prepared for Calculus I, but are interested in pursuing a degree in math, please contact the science and math division at extension 1508 or [sciencemath@massasoit.edu](mailto:sciencemath@massasoit.edu) to make an appointment with a STEM coach to help you create a plan to get ready for Calculus I.

This program is designed to prepare you for transfer to a four-year institution to pursue a bachelor's degree in math or a math intensive subject such as physics. Because different institutions may require additional coursework, you are strongly encouraged to contact the science and math division (extension 1508 or [sciencemath@massasoit.edu](mailto:sciencemath@massasoit.edu)) to make an appointment with a STEM coach or to discuss options.

MATH 223 Calculus III is offered on the Canton campus in the fall, the Brockton campus in the spring, and/or online.

MATH 230 Differential Equations is offered on the Brockton campus in the fall, the Canton campus in the spring, and/or online.

MATH 229 Linear Algebra is offered on the Brockton campus in the fall and/or online.

Please be sure to plan your schedule accordingly.

It is strongly recommended that you consider joining the STEM Scholars program, which is a cohort program that provides support, coaching and opportunities to explore career choices and develop skills for successfully transferring to a four-year institution. Contact extension 1508 or [stemstarter@massasoit.edu](mailto:stemstarter@massasoit.edu).

**Electives:** Students choosing a humanities, lab science, liberal arts, modern language, general, or science elective can select from the Course Elective Guide at [massasoit.edu/electives](http://massasoit.edu/electives).

**Students wishing to use the MassTransfer Gen Ed Foundation should select humanities electives and not general electives..**

This program is intended for students who wish to continue their education to pursue a bachelor's degree at a four-year college or university. Students enrolled in this program may consider transfer options through MassTransfer with Massachusetts state colleges and universities or other transfer opportunities at private institutions.

\*Transfer Note: The **transfer maps** are only recommended for getting into some programs at particular colleges with specific grades. If you are interested in transferring, we recommend you sign up for a Transfer Information Session on our Transfer Services website: [massasoit.edu/transfer](http://massasoit.edu/transfer).

Some courses may have prerequisites, which are courses that **must** be taken prior to a particular course. For details, log into Degree Works through your MyMassasoit portal.

**A minimum of 61 credits and 18 courses is required for completion. The same course may not be used to satisfy two different course requirements.**
